Notes:
1 = Only WPA settings
2 = only lock
3 = In Android Work profile the Wipe button is replaced with Delete Work profile, which only wipes all data inside work profile, data in personal profile is untouched
4 = manual installation of the app(s) is required. Update of app in background is possible. For the MDM integrated AppStorage feature, the app Company Hub App must be used and signed accordingly. The Installations tab in Inventory shows only application details from apps that have been installed via Company Hub and/ or as MDM install command..
5 = Only GPRS APN on Android 2.X, Samsung SAFE/KNOX and Huawei MDM api supported devices
6 = iOS7 >= Only on iOS devices from iOS7 in supervised mode can the apps be installed in background. App Installations from iTunes AppStore requires a local AppleID on the device, unless the device runs iOS >= 9.x and server uses VPP / VPP2 or B2B VPP
7 = In Android Work profile mode the feature only applies to the lock feature of access to the data inside Work profile.
8 = Nur Samsung Knox kompatible Geräte: ( <a href="https://www.samsungknox.com/en/knox-supported-devices">https://www.samsungknox.com/en/knox-supported-devices</a> )
9 = MAM (Mobile Application Management), MCM (Mobile Content Management)
10 = Native Endgeräteverschlüsselung vom Hersteller
11 = Only HTCpro client, Samsung SAFE/KNOX client and Android GALE client devices
12 = macOSx >= 10.10 required and only from AppStore
13 = Knox restriction
14 = Google Play for Work Editor
15 = Device and device firmware must support Huawei MDM API, and only from EMUI Version >= 5.1 and higher and on business segment devices (P9, P9 Lite mini, P10, P10 Lite, Mate 9, Mate 9 Pro, Mate 10, Mate 10 Lite, Mate 10 Pro) and only with 7P or Telenor branded client from version 5.28.03 and higher.
16 = Not all configuration types can be requested from device inventory on inventory reporting from device to server
17 = Newer version available work on the MDM client, MDM components, Company Hub, Google Play/iTunes AppStore apps and only when the script for Appversions update in schedule is activated. Is by default not enabled.
